TIPS AND TRICKS

Reading Comprehension Strategies :

- Read the Questions First: Understand what the question is asking before reading the entire text so that your search for information is more focused.
- Use the Skimming Technique: Quickly read the first and last sentences of each paragraph to find the main idea.
- Use the Scanning Technique: Look for specific keywords (such as names, years, or technical terms) mentioned in the question directly within the text.
- Guess the Meaning from Context: Do not panic if you encounter unfamiliar vocabulary; guess its meaning based on the preceding and following sentences (context clues).

Text 1

Read the following dialog to answer questions 1–4.

Kinan: Adam, have you tried that new AI art app that turns photos into Studio Ghibli-style pictures?

Adam: I tried it last night. It's amazing how AI can make something creative and realistic in seconds.

Kinan: Yeah, I was really curious about how fast technology is advancing, can we? What do you think about it?

Adam: I think it's exciting. Technology's growth is really impressive. What are your thoughts?

Kinan: Honestly, it worries me a bit.

Adam: Why's that?

Kinan: While tech has advanced a lot, we need to consider its long-term effects. Social media, for example, has changed how we think, communicate, and feel. It pressures teens to compare themselves with others, affecting self-esteem. Plus, people are careless with privacy, sharing personal info that scammers can misuse.

Adam: True, but don't you think social media also allows people express themselves freely?

Kinan: Yes, but I think we should weigh the benefits. Misinformation spreads fast, and people don't always check the facts. Cyberbullying is another issue, and many spend hours online without realizing it. And cyberbullying is another serious problem that affects students.

Adam: The real issue is balance; being mindful of how much we spend online and how we use it.

Kinan: Exactly. I believe schools should teach digital literacy and online ethics. Since we live in a digital world, we need the right skills to use it wisely.

QUESTION 1

Tick (✓) the STATEMENTS THAT CORRECTLY COMPARE KINAN AND ADAM'S VIEWS ON TECHNOLOGY AND SOCIAL MEDIA. YOU CAN TICK MORE THAN ONE statement.

- ☐ Both Adam and Kinan believe that social media only brings negative impacts to society.
- ☐ Adam sees technology as impressive and exciting, while Kinan is more concerned about its long-term effects.
- ☐ Kinan argues that social media can lead to addiction and misinformation, while Adam does not mention these issues.
- ☐ Adam emphasizes balance in using technology, while Kinan suggests schools should teach digital literacy and online ethics.
- ☐ Adam thinks social media plays a big role in his users' growth, while Kinan argues that social media should be completely stopped to protect users from harm.

ANSWER

- ☐ A. Both Adam and Kinan believe that social media only brings negative impacts to society.
